## SUMMARY

Software developer and former professional esports competitor with experience building real-time trading systems, automation tools, and full-stack applications. Currently supporting autonomous vehicle operations at Waymo. Background spans competitive gaming at the highest levels (Challenger in LoL, pro Valorant, ESEA MDL CS:GO), team management, and software engineering. Open to relocation.

## TECHNICAL SKILLS

**Languages:** Python, JavaScript, TypeScript, SQL, HTML/CSS, Go (learning)

**Frameworks:** React, React Native, Flask, Node.js, FastAPI, Expo, Vite

**Tools & Infrastructure:** asyncio, Web3.py, WebSocket, REST APIs, Git, Docker, AWS, Vercel, Supabase

**Trading:** Alpaca API, TopstepX API, Polygon/MATIC, CLOB protocols

## EXPERIENCE

### Autonomous Vehicle Specialist | TaskUs (contracted to Waymo) | Dec 2025 - Present

- Operate within Waymo's autonomous vehicle fleet, interfacing with ML-driven perception and planning systems
- Troubleshoot edge cases where ML models encounter novel scenarios, providing feedback for model retraining
- Execute vehicle diagnostics, field readiness checks, and incident documentation at scale

### Tech Consultant | MarketSource | Oct 2024 - Apr 2025

- Advised 50+ clients weekly on technology solutions with top 10% customer satisfaction scores

### Real Estate Sales Assistant | Home Boys, LLC | Jan 2022 - Sep 2024

- Supported licensed agents with administrative tasks, marketing, lead generation, and social media management

### Esports Manager & Professional Player | Equinox Esports / Spacestation Gaming | 2015 - 2022

- Competed professionally in Valorant for SSG (2021), China Nguyen/Equinox (2020)
- Managed women's Valorant team (2022), including recruitment and team operations
- Negotiated six-figure annual salaries with investors for 5-player rosters

## COMPETITIVE GAMING

**Valorant:** China Nguyen / Equinox (2020), Spacestation Gaming (2021), Women's Team Manager (2022)

**League of Legends:** Peaked Challenger (Solo Queue & 5's), Top 16 Collegiate (2015-2016)

**Heroes of the Storm:** Professional Player (2016), Collegiate Grand Finals 2nd Place (2016)

**CS:GO:** ESEA MDL Semi-pro (2018)

**Fortnite:** \$5,000+ tournament earnings (2017-2018)

**TFT:** Challenger every set played, Peaked Top 5 Sets 1 & 2 (2019-2020), Streamer 50-100 avg viewers

## PROJECTS

### Polymarket Trading System — Python, asyncio, Web3.py, WebSocket, Flask

- Automated arbitrage bot for prediction markets handling real-time price streaming and order execution

### NQ Futures Trading Bot — Python, TopstepX API, FastAPI

- Automated /MNQ futures system with key level detection, news sentiment filtering, and risk management
